

THE LIST Alternative & Conventional Veterinary/Canine Information

I have compiled the following information for distribution to anyone who wants it. This information came my way because of the grave illnesses of my Miniature Schnauzers, Shannon and Katie. I was forced to search for help. These sources came from dear friends, acquaintances, and total strangers. The power of the Internet was a godsend – thanks to friends who took the time to send out a call for help when I needed it.

Not all of the following sources have I personally used, but they have been recommended by people I know; therefore, I feel comfortable putting them/it on this list. **You, the user must decide if these contacts are for you. Please evaluate them on an individual basis.**

Some of you may have a vet/homeopathic vet, etc. that you feel should be added. Please contact me and I will add them. I hope to establish a wide range of contacts, so that when the need arises with our pets, time is not lost in the search - time is spent on the cure.

Wishing you all healthy, happy, canine friends.

Lynn Baitinger
& Katie, too (Bark!)
