CLASS DESCRIPTIONS

Two certification programs will be offered at this event – Championship & Performance. Competitors may enter both Championship and Performance Program classes for which they are eligible; however, under NO circumstance may a dog be entered in the same Championship and Performance class at this agility test (i.e. standard at any level in both programs). Classes include standard agility, gamblers, jumpers, pairs relay and snooker agility as set forth in Chapters 3 – 7 of USDA Rules and Regulations, each of which are conducted at three competitive levels.

CHAMPIONSHIP PROGRAM CLASSES

▶ **Starters Standard** classes shall be for dogs that have not earned the *Agility Dog*[®] title or a Starters Standard title. Starters Non-standard classes shall be for dogs that have not earned a title in the class being entered (Starters Gamblers, Starters Jumpers, Starters Relay-3 different partners required-or Starters Snooker) or a qualifying score in the equivalent non-standard class at the Advanced or Masters level. When offered separately as Starters and Novice classes, the Starters level classes are for dogs handled by a person who has not previously earned the *Agility Dog* title or a title in the Performance or Veterans Program with any dog. Three qualifying scores in the standard class from two different judges along with one qualifying score in each of the nonstandard classes is required to earn the *Agility Dog* title.

▶ **Advanced Standard** classes shall be for dogs that have earned the *Agility Dog*[®] title or a Starters Standard title. Advanced non-standard classes shall be for dogs that have earned the *Agility Dog*[®] title or that have earned a title in the equivalent non-standard class at the Starters level, but have not earned the equivalent Advanced non-standard title or a qualifying score in the equivalent non-standard class at the Masters level. Three qualifying scores in the standard class from two different judges along with one qualifying score in each of the nonstandard classes is required to earn the *Advanced Agility Dog* title.

▶ **Masters Standard** classes shall be for dogs that have earned the *Advanced Agility Dog*[®] title or the *Advanced Standard* title. Masters non-standard classes shall be for dogs that have earned the *Advanced Agility Dog*[®] title, the equivalent non-standard title at the Advanced level, or that had previously qualified for entry into the equivalent Masters non-standard class prior to January 1, 2004.

PERFORMANCE PROGRAM CLASSES

Generally, Performance Level I, Level II and Level III are run on courses used for Starters, Advanced and Masters classes in the Championship Program, with the following exceptions: the A-frame is set at 5'6", jump heights are one height class lower as set forth in Notes to Competitors, no spread hurdles are utilized and time standards in the standard, jumpers classes are extended by 3 seconds beyond that utilized in the Championship Program and the pairs relay class is non-qualifying. Eligibility is determined as follows:

- ◆ **Performance I Standard** classes shall be for any dog that has not earned the *Performance Dog I*SM title, the *Performance Standard I* title, or a qualifying score in the Performance II or Performance III standard classes. Performance I non-standard classes shall be for any dog that has not earned a title in the class being entered (Performance I Gamblers, Performance I Jumpers, or Performance I Snooker) or a qualifying score in the equivalent non-standard class at the Performance II or Performance III level. Three qualifying scores in the standard class from two different judges along with one qualifying score in each of the non-standard classes is required to earn the *Performance Dog I*SM title.

- ◆ **Performance II Standard** classes shall be for any dog that has earned the Performance Dog ISM title, the Performance Standard I title, the Agility Dog[®] title or the Veteran Agility DogSM title, but has not earned the Performance Dog IISM title or Performance Standard II title, or a qualifying score in the Performance III standard class. **Performance II non-standard classes** shall be for dogs having earned the Performance Dog ISM title, the Agility Dog[®] title or a title in the equivalent Starters or Performance I non-standard class, but not having earned a title in the equivalent non-standard Performance II class or a qualifying score in the equivalent non-standard Performance III class. Three qualifying scores in the standard class from two different judges along with one qualifying score in each of the nonstandard classes is required to earn the Performance Dog IISM title.
- ◆ **Performance III Standard** classes shall be for any dog that has earned the Performance Dog IISM title, the Performance Standard II title, the Advanced Agility DogSM title, or the Veteran Advanced Agility DogSM title. **Performance III non-standard classes** shall be for dogs having earned the Performance Dog IISM title, the Advanced Agility Dog[®] title, the equivalent non-standard title at the Advanced or Performance II level, or that had previously qualified for entry into the equivalent Performance non-standard class prior to January 1, 2004.

NONSTANDARD CLASSES (AKA Games):

Gamblers Class consists of a course with no pre-determined route and each obstacle is assigned a point value. In the 'opening' period the handler seeks to accumulate points by performing the obstacles of his/her choice in the time allotted. At the conclusion of the 'opening' period the handler attempts the 'gamble', which is a sequence designated by the judge to be handled from a distance, for additional points. The class is scored pursuant to the provisions of chapters 6 & 7 of USDAA Rules and Regulations

Pairs Relay consists of a standard course with one dog and handler running a portion of the course, followed by a baton exchange to a second handler and dog who run the second portion of the course. Partners must be in the same level and in the same height division, mini or open. In the event only one dog is entered in program/level, un-entered dogs or dogs from another program/level may not be recruited to form a qualifying pair. Relay is required for titling at all levels of Performance. This class is scored pursuant to the provisions of chapters 6 & 7 of USDAA Rules and Regulations

Jumpers Class consists of a course of jumps and may include a tire and tunnels. This class is scored pursuant to the provisions of chapters 6 & 7 of USDAA Rules and Regulations.

Snooker Class has an 'opening' sequence of point collection similar to Gamblers followed by a 'closing' sequence of a set pattern. This class is scored pursuant to the provisions of chapters 6 & 7 of USDAA Rules and Regulations
